Business License Applicant:

After you submit your Vineyard Business License application, and before your application can be approved, you will need a fire inspection to ensure International Fire Code Compliance. Vineyard contracts with Orem Fire Department to provide this service.

There are several things the fire inspector may check. The list below is an example of the common things an Inspector may look for. Because of the various business types and locations of businesses in the City, it would be impossible to list everything that may be required for each business. Feel free to use this list as a guide prior to setting up an appointment for inspection, and call the number below with any questions.

- Address on the Building and Visible from the Street.
- Proper Exits from the Building that are Unobstructed.
- No Open Circuit Breaker Spaces in the Electrical Panel.
- Circuit Breakers Need to be Labelled and the Panel Accessible.
- Proper Storage of Oily Rags, Paint and other Hazardous Liquids or Gases.
- 36-inch area around Heaters and Water Heaters are clear of debris and storage items.
- Proper Fire Extinguishers (most are 2A 10BC) (Inspected and Tagged every year)
- Sprinkler Systems (where applicable) (Inspected and Tagged every year)
- Fire Alarm systems (where applicable) (Inspected and Tagged every year)
- Hood Systems (where applicable) (Inspected and Tagged every 6 months)
- Extension cords are not to be used for permanent wiring. When necessary, power strips may be used instead.

The Orem Fire Department's Fire Prevention Bureau looks forward to working with you to make your new business a success.

Once all furniture and fixtures are in place and you are ready for a final fire inspection, contact the fire inspector to schedule your inspection:
